**SAP50 - Land adjacent to Short Street, Chillenden (GOO006)**

Dear Inspectors

My neighbours have spent much time and effort in researching the flood risk, enormous access problems to the proposed site and the obvious damage to the natural environment the development will bring to our rural hamlet.

I wish to inform you from a different angle to make you understand how this will affect the lives of those of us living alongside this proposed site, perhaps the human side (accuse me of being 'woke' if you wish).

In my two previous submissions I requested feedback and personal contact. I understand my comments were 'Noted' please do not treat me as irrelevant. I will expect those residents who attend the hearing on my behalf to receive much more specific information.

I studied the Dover District Corporate Plan 2020-2024. Contained within are comments on 'facilitating a better environment for everyone', new housing on currently used farmland for which the landowner receives rent and has done for many years; SAP50 does not facilitate a better environment for my neighbours and I.

Priority Theme Two : Housing and Community states 'work to build healthy, resilient and sustainable communities where residents have good access to facilities and transport links to further their wellbeing', SAP50 development does not improve facilities and certainly my and my neighbours wellbeing. We count, we are Council Tax payers of many years, please consider the impact on our lives.

As your 'Our Vision' statement reveals you wish Dover to be a district of 'good living'. Please do not damage my neighbours and mine 'good living' situation by allowing an unsuitable housing build in our unspoilt village.

Yours sincerely,

Richard and Maria Himsworth
